

Das SCIO-System, die Medizin des 21. Jahrhunderts

(Lieferbar in Deutsch und Englisch)

Das weltweit führende Biofeedbackinstrument liefert professionellen Anwendern unterschiedlichster Fachrichtungen Informationen zum energetischen Ausgleich oder zur Stressreduktion ihrer bzw. Kunden.

Das SCIO-System sammelt in über 50 Kanälen bioenergetische Daten vom Körper der getesteten Person sowie auch des getesteten Tieres. Diese Daten werden sortiert und die Informationen nach Prioritäten aufgelistet.

12 Messelektroden erlauben die Abnahme der Informationen über multiple Kanäle. Diese Vorgehensweise ermöglicht in wenigen Minuten umfangreiche Informationen über den energetischen Gesamtzustand der getesteten Person. Bei dieser Form des Biofeedbacks ist der Anwender aus dem energetischen Frequenzbereich des Probanden komplett ausgeschlossen. Nach Feststellung des energetischen Zustandes kann nun der Anwender unter mehr als 250 energetischen Stressreduktionsmöglichkeiten wählen.

Das Wort SCIO (gesprochen ski-o) kommt aus dem Lateinischen und bedeutet "Ich weiß". Diese Abkürzung steht für Scientific Consciousness Interface Operations Systems.
